NewsPaperWork Project

#concept

These are the people of the Post-Industrial generation who were born into the constant news flow.

Modern people living in times of blogosphere and checking news every second of their lives - from everywhere: from the office, the street, the restaurant, the toilet and even from onboard an aircraft...

Children of Globalization posting news, absorbing news - dressed in news... living in the eternal information hunger and dependence.

Is it really a new type of people or nothing changes and human nature stays exactly the same?

NEWSPAPERWORK JEWELLERY

Was created by Masha Trotzky in 2015 as an extension of art series of pictures dedicated to the role of propaganda and news in contemporary society.

The idea is to recycle aggressive propaganda campaigns into something beautiful, creative and humane. Jewellery was made from plastic, real Russian newspapers and covered by water-resistant lacquer.

CARE INSTRUCTIONS:

Avoid getting jewellery wet. If they do get wet, dry with towel.

With a little care, NewsPaperWork jewellery will last a lifetime.

EVERY PIECE IS UNIQUE!

CONSTRUCTOR

FOR ADULTS

#CONSTRUCTOR FOR ADULTS

is an art project dedicated to changing symbols and signs of the contemporary society. The symbolic system of the post-industrial society has become much more illustrative and interesting with appearance of virtual space and various gadgets. Smileys and tegs have come to our everyday life and written language, social networks have enriched mass cultures with their notions and logos.

But due to the last year political events, the social context inevitably started to #change... The focus of society's attention, normally fixed on Consumption, slowly began to shift to confrontation and the fear of the Third World War.

The best way to understand what is happening is to open a dialogue with a joint cross-cultural project.

So, we present the project that has the following conception:

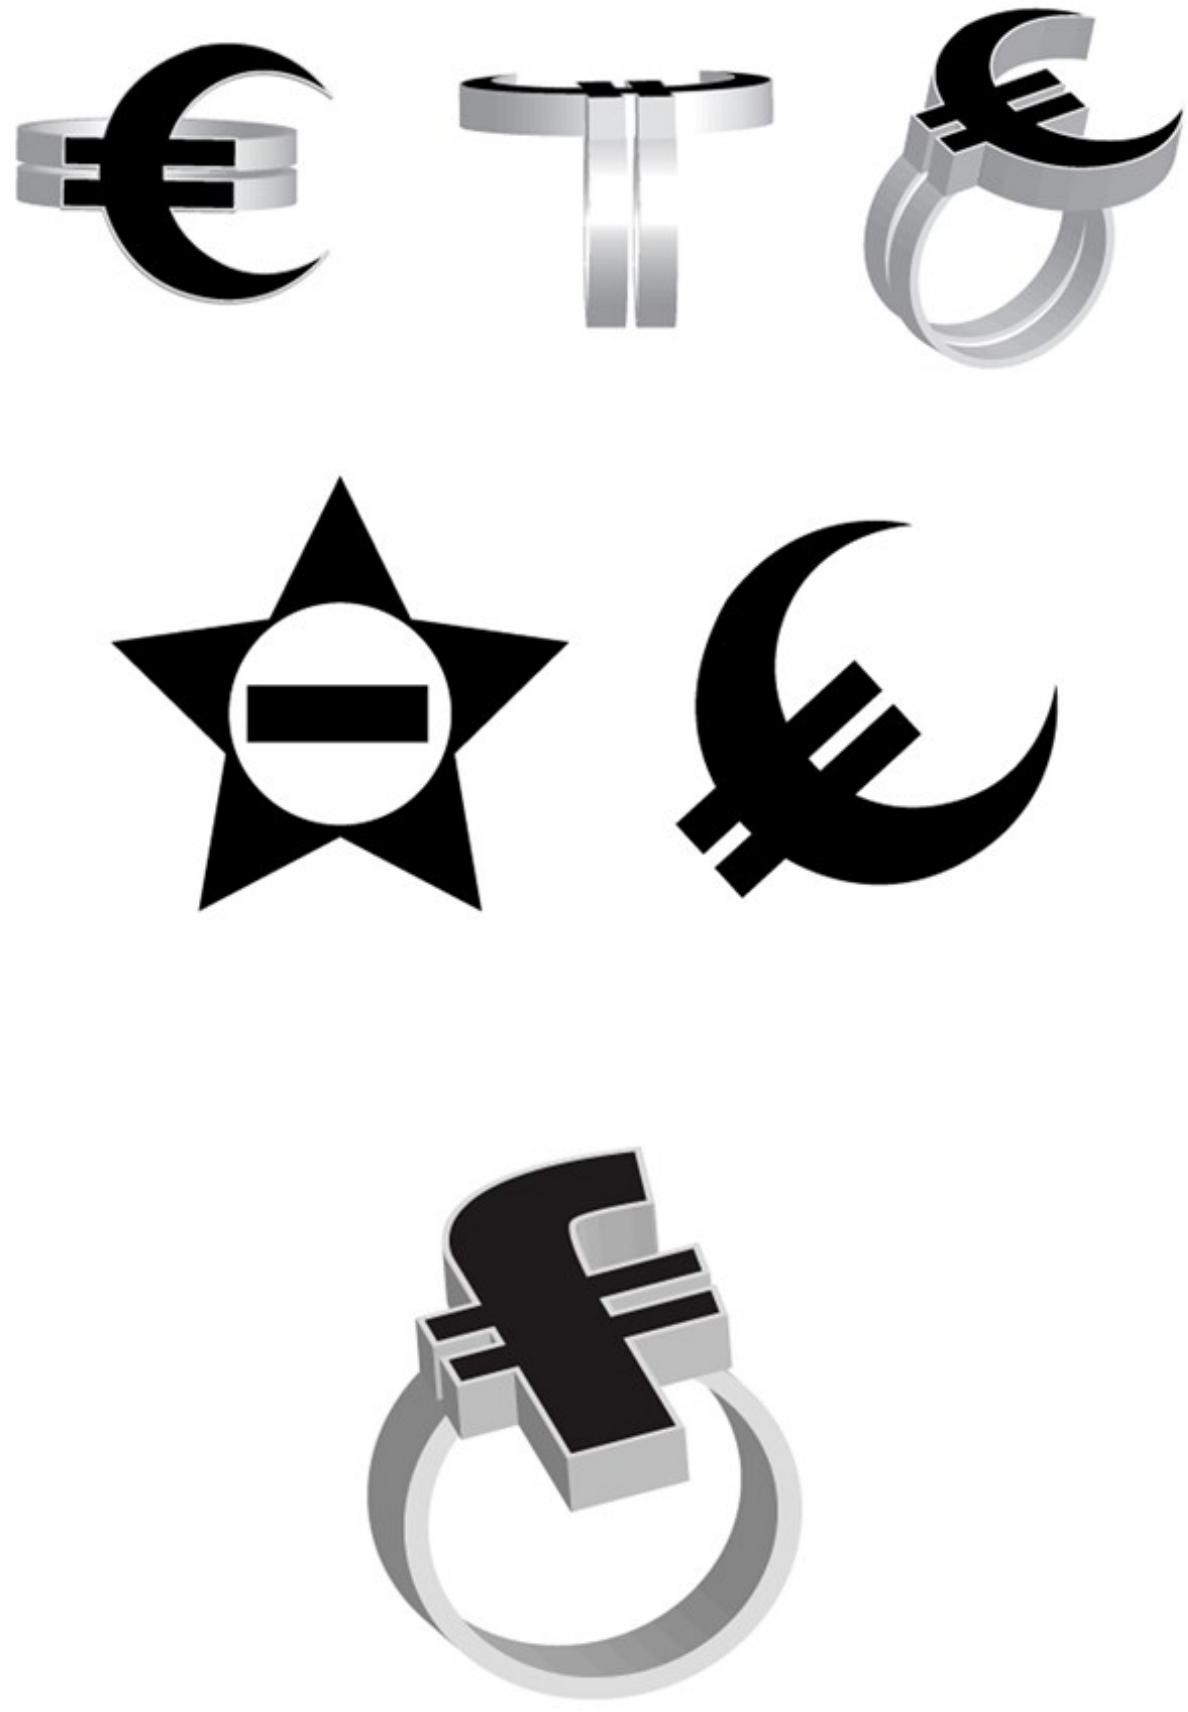

- two designers with the different means of exposure (posters, objects, photography);
- common feelings, ideas and the #signs transforming themselves into hybrid forms. Research objects in our case are all social Signs and Logos - starting from totalitarian symbols (swastika, red star, hammer & sickle) and finishing with love, religious and monetary signs.

All the favorite symbols of the society are combined in one art-project. Adults can play with it.
